

# Color, Contrast & Cohesion

with Diane Harris

The three C's—Color, Contrast and Cohesion—can make or break your quilt! Learn to control them as you start a simply pieced scrap quilt. Begin to work your creative muscles with observation and articulation. Learn why color is the least important of the three C's. Discover ways to unify diverse fabrics and understand the way value and contrast work together. Get comfortable with making decisions as you go, because that's what a scrap quilt requires. Once you begin to work in this way, you might not want to go back!

Choose from numerous easily pieced designs so you'll love what you're making. Patterns are included so there's nothing extra to purchase. Get ready to be inspired, see fabrics in a new light, enjoy playtime and make something fabulous! You likely already have everything you need for this workshop. Supply list becomes available at registration; patterns arrive two weeks before class. Trust me, it works!
